

Digging Deeper

A-B: Albert had to be brave and try something new when he went canoeing. Have you ever tried something new? How did you feel?

C-D: Cherry blossoms, called sakura in Japan, are an important part of Japanese culture. Why are cherry trees special to both Japan and the United States?

E-F: The Adventure Kids are on safari! Choose one animal you see in the picture. What special features help it survive in the wild? Can you find three African countries where you could go on safari?

G-H: Explore the different languages used to say "hello." Do you know any other ways to say hello?

I-J: The Adventure Kids are riding camels in the desert. How long can a camel go without drinking water? In the picture, you can see the sea. Can you find the Arabian Sea on a map?

K-L: Look out the window for clues to where the Adventure Kids are visiting. Hint: This city has around 435 bridges! Can you figure out what city and country they are in?

M-N: Albert, Cora, and Ollie are exploring the Amazon Rainforest. Which countries have part of the Amazon Rainforest?

True or False: There are two-toed and three-toed sloths in the rainforest.

O-P: Can you name all the oceans of the world?

Q-R: What is growing in the fields Ollie is asking about? How many languages are spoken in Indonesia?

S-T: Albert is talking with his new friend Sophie. Look for clues to figure out which country they are in. Albert also learned a new word, "fika." It's an important tradition there. What does fika mean?

U-V: The Adventure Kids are visiting Stirling Falls in New Zealand. Rainbows are magnificent, but you don't see one every day. What kind of conditions would make spotting a rainbow more likely?

W: How many plastic water bottles do you think are used around the world in one day? Research it and see what you can discover.

X-Y: Have you ever seen fireflies (lightning bugs)? What makes them glow?

Z: Cora has pictures of Ensenada and the Winter Palace/Hermitage Museum. Where in the world can you find each one? What countries are they in?
